Doors & Windows Notes

All windows to be made with safety glazing to BS6202.
All windows to be made with secondary glazing.

Velocity to be for 4" white PVC double glazed with laminated glass.
All areas requiring toughened glass to be indicated.
Internal doors to be made with safety glazing.

Setting Out Notes:

Setting out of all elements to be read in conjunction with all other relevant design drawings.

Internal dimensions are to be taken to the face of timber elements.

All dimensions are to be checked on site. Any ambiguities, omissions and errors on this drawing are to be notified immediately to the Architect before the commencement of works on site.

This drawing is to be read in conjunction with all other relevant drawings and specifications for this project.

General Notes

Do not scale off this drawing unless a scale bar is provided.
Any alterations, amendments and errors on this drawing should be notified immediately to the Architect before the commencement of works on site.

All dimensions are in millimetres unless otherwise stated.
All areas are in square millimetres unless otherwise stated.
All dimensions, unless otherwise indicated, are to be taken at the rough finish of adjacent elements.

All dimensions are to be checked on site. Any discrepancies are to be rectified immediately to the Architect before the commencement of works on site.

All levels are in metres unless otherwise stated.

The drawing is to be read in conjunction with all other relevant drawings and specifications for this project.
